

Kentucky Community and Technical College System Board of Regents

Update Agenda Item: Certificate and Program Suspensions

Relevant Legal Authority: Twice annually, the Board of Regents is informed of credentials (certificates, diplomas, focus tracks of Associate of Applied Science degrees, and degrees) that have been suspended from the KCTCS Colleges' program inventories. A suspended program is defined by the Kentucky Council on Postsecondary Education as an academic program that no longer accepts new students as of a specified date but allows current or previously accepted students to complete the program. The program can be re-opened within five years without going through the new academic program approval process. After five years, if the program has not been re-opened, it is considered a closed program.

Background: The Program Suspensions Report which follows documents program suspensions from January through June 2024.

Summary of Suspensions

The report documents suspensions from seven Colleges along with rationale summaries for the suspension(s).

Credential Level	Credential/Track Suspended
AAS Degrees	13
AAS Tracks	19
Diploma	20
Diploma Tracks	2
Certificates	115
TOTAL	169
